

Remarks**Rejections under 35 U.S.C. § 102**

Claims 1, 2, 4-7, 14, 15, and 18 were rejected under 35 U.S.C. § 102(e) as being anticipated by U.S. Patent No. 6,821,895 to Lin et al. ("*Lin*"). Applicants respectfully request reconsideration of this rejection for the following reasons.

Lin has an earliest effective date of February 20, 2003. However, the invention date of the subject matters of claims 1, 2, 4-7, 14, 15, and 18 precedes that date as evidenced by the attached declaration under 37 C.F.R. § 1.131, along with photocopies of the supporting documents that are provided herewith. In particular, the declaration along with the photocopies of the supporting documents show that the subject matters of claims 1, 2, 4-7, 14, 15, and 18 have a conception date at least as early as September 20, 2002, and subsequent diligence beginning at least prior to the earliest effective date of *Lin* (February 20, 2003) until filing of the subject patent application on January 22, 2004. Therefore, the invention date of the subject matters of claims 1, 2, 4-7, 14, 15, and 18 predates the effective date of *Lin*. For at least this reason, claims 1, 2, 4-7, 14, 15, and 18 are patentable over *Lin*.
